

## Corey Lott | Software Engineer

---

An enthusiastic Software Engineer with a skill set encompassing **React**, **CSS** and **Javascript**, I am seeking a new challenge. I drive success in team and individual settings with my strong work ethic and passion for constantly learning.

### Skills

**Languages** - JavaScript, HTML, CSS, Mongo, JSON, EJS, Python, SQL

**Database** - MongoDB, Django | **Other** - RESTful Routing, JSON api

**Libraries and Frameworks** - React (class based and hooks), Express.js

---

### Software Development Projects

[ReactTV](#) - React, Javascript, HTML, CSS

Sept 2022

*ReactTV is a movie database similar to TMDB. It allows a user to search for Movies and Tv Shows.*

- Styled the app using Material UI, it offers a suite of UI tools for shipping new features faster.
- Wireframed and planned UI design of application using Figma.
- Used CSS to help polish the styling aspect, added media queries to make it more mobile friendly.
- Pulled Data from third party API.

[Medium.com](#) - HTML, CSS, Javascript, Express, Node.js, MongoDB

Sept 2022

*Re-engineered version of medium.com*

- Utilized Express, MongoDB, Node.js backend handling all create, read, update, delete (CRUD) operations, and tested all backend routes during development using Postman.
- Used Mongoose to define schemas for MongoDB collections.
- Implemented ES6 tagged template literals with Styled-Components along CSS3 to provide style and flexbox layout
- Collaborated with 2 Software Engineers to conceptualize, design, and build this app in one-week sprint.

[Double Flip](#) - HTML, CSS, Javascript, DOM manipulation

Aug 2022

*A simple match matching game with a Marvel theme.*

- Utilized HTML, CSS and DOM-based Javascript to build a functioning game.
  - Created an application and styled using CSS3 with Grid layouts.
- 

### Professional Experience

**Driver (CDL) - SCP Distributors** | Kilgore, TX

Oct 2018 - Dec 2021

**Warehouse Associate - SCP Distributors** | Kilgore, TX

July 2018 - Oct 2018

- Delivered pool supplies to stores within my region; utilized most effective routes to ensure on-time deliveries.
  - Collected payments and accurately documented an average of 15 deliveries each day.
  - Provided excellent customer service by coordinating timely deliveries and pick-up, safely loading and unloading the vehicle, ensuring that all products were properly secured, and that hazardous materials were separated appropriately.
  - Operated a forklift safely and efficiently, maintained required certification, performed vehicle safety checks and reported discrepancies immediately.
-

## EDUCATION

**General Assembly** | Remote

JULY 2022 - OCTOBER 2022

### **Software Engineering Immersive**

Full-stack software engineering immersive student in an intensive, twelve-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.
